Artist description:

The largest and most successful of the Murano glass furnaces, still in operation in Venice today. Established in 1925 by Paolo Venini, Venini embraced Modernism trends in art and architecture with their new designs in elegant shapes and colours. Venini was also known for enlisting various designers in their projects, bringing new ideas to Murano. These included; Napoleon Martinuzzi, Tommaso Buzzi, Carlo Scarpa, Gio Ponti, Tyra Lundgren and Fulvio Bianconi. Venini still produces a beautiful line of new and classic art vases and lighting every year.
