Glass ceramic and copper wire
31 x 40 x 26 cm (12¹/₄ x 15³/₄ inches)

A unique hand-sculpted and blown artwork by Ida Wieth-Knudsen.

Wieth-Knudsen makes use of classically learned craft skills based on traditional mouth-blown glass techniques and pushes the boundaries of the material's possibilities in an artistic context. She works in a sculptural and conceptual way that revolves around ideas such as time, variability, combined with literary and art historical references.
