New Scandinavian Glass

8th November - 22nd December 2018

Historically a hub for glass production throughout the 20th Century, Scandinavia has changed dramatically in recent years. With production costs at an all time high, much glassmaking has migrated to Countries that can carry the burgeoning costs more easily. New Scandinavian Glass will focus on a revived approach that makers & artists are taking, to create unique and unexpected works of art that are executed with the highest level of craftsmanship.

Featuring a selection of 25 new and established artists, this will be the largest presentation to date of contemporary Scandinavian glass to be shown in the UK.

Vessel also consults for interior & corporate projects and private commissions, providing the opportunity to have a truly bespoke service with unique works conceived through dialogue with the client. The gallery is a valuable resource for artists, museums and collectors. Numerous artworks have entered prestigious public collections as a direct result of the Gallery's exhibitions and advocacy.
